

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary this close to the election is a clear sign of bias; as Sinclair is obligated by law to serve the public interest, they have a legal, moral, and patriotic responsibility to act fairly.

When large companies control the airwaves, the public can be cheated out of balanced reporting of issues and ideas, in favor of productions that are financially beneficial for the company. We need more of what is good for true democracy: local, honest information untainted by corporate connections and greed.

Please consider Sinclair's recent actions as their license comes up for renewal. Thank you.
